JURISDICTIONAL DETERMINATION

U.S. Army Corps of Engineers

DISTRICT OFFICE: Omaha FILE NUMBER: 200560037

Sta Cor Cer Ap Na	te: North unty: Dun nter coordi proximate me of near	Dakota n inates of sin size of are rest waterw		ude): 47-28 ed, includir u ri River	8-10.8741 ; 103-00-37.7276 ng uplands: 1.0 acre.
			RMINATION determination (s)		Date: 27 Jan 2005 Date(s):
Jui	risdictiona	al Determi	nation (JD):		
	United S	States" and			on, \square there appear to be (or) \square there appear to be no "waters of the United States" on the project site. A preliminary JD is not appealable
		ed JD – An ll that appl		n appealab	le action (Reference 33 CFR part 331).
					States" (as defined by 33 CFR part 329 and associated guidance) within ctional area:
					defined by 33 CFR part 328 and associated guidance) within the nal area: 0.1 acres .
	☐ There	e are "isol			tate waters or wetlands" within the reviewed area. ANCC/Migratory Bird Rule Information Sheet for Determination of No
BASIS	Waters The pres	defined ur sence of wa	ters that are subje	rt 329 as "rect to the el	navigable waters of the United States": bb and flow of the tide and/or are presently used, or have been used in bort interstate or foreign commerce.
B.	(1) The I interstate (2) The I (3) The I sandflats destructi (i) v (ii) (iii)	presence of e or foreign presence of presence of s, wetlands ion of which which are of from which o which are	waters, which as a commerce, include the finterstate waters of other waters such a sloughs, prairie the could affect into could be used the fish or shellfish or could be used	re currently uding all was including that intrast potholes, was cerstate com- by interstate are or coul- for industr	as "waters of the United States": y used, or were used in the past, or may be susceptible to use in aters which are subject to the ebb and flow of the tide. interstate wetlands¹. y ate lakes, rivers, streams (including intermittent streams), mudflats, wet meadows, playa lakes, or natural ponds, the use, degradation or merce including any such waters (check all that apply): y or foreign travelers for recreational or other purposes. In the state of the taken and sold in interstate or foreign commerce.
	(5) The p (6) The p	presence of presence of	f a tributary to a v f territorial seas.	vater identi	as waters of the US. fied in (1) – (4) above. waters of the US, except for those wetlands adjacent to other wetlands.
Ra	tionale for	r the Basis	of Jurisdictiona	ıl Determii	nation (applies to any boxes checked above). If the jurisdictional

Rationale for the Basis of Jurisdictional Determination (applies to any boxes checked above). If the jurisdictional water or wetland is not itself a navigable water of the United States, describe connection(s) to the downstream navigable waters. If B(1) or B(3) is used as the Basis of Jurisdiction, document navigability and/or interstate commerce connection (i.e., discuss site conditions, including why the waterbody is navigable and/or how the destruction of the waterbody could affect interstate or foreign commerce). If B(2, 4, 5 or 6) is used as the Basis of Jurisdiction, document the rationale used to make the determination. If B(7) is used as the Basis of Jurisdiction, document the rationale used to make adjacency determination: The project, wetland creation, is located on a unnamed tributary to Crosby Creek a tributary to Sand Creek a tributary to the Little Missouri River a tributary to the Missouri River. (Missouri River is a Section 10 waterway)

	Ordinary High Water Mark indicated by: Clear, natural line impressed on the bank Changes in the character of soil destruction of terrestrial vegetation shelving other: High Tide Line indicated by: High Tide Line indicated by: oil or scum line along shore objects fine shell or debris deposits (foreshore) physical markings/characteristics tidal gages other:						
	Mean High Water Mark indicated by: ☐ survey to available datum; ☐ physical markings; ☐ vegetation lines/changes in vegetation types.						
	Wetland boundaries, as shown on the attached wetland delineation map and/or in a delineation report prepared by:						
Bas	The reviewed area consists entirely of uplands. Unable to confirm the presence of waters in 33 CFR part 328(a)(1, 2, or 4-7). Headquarters declined to approve jurisdiction on the basis of 33 CFR part 328.3(a)(3). The Corps has made a case-specific determination that the following waters present on the site are not Waters of the United States: Waste treatment systems, including treatment ponds or lagoons, pursuant to 33 CFR part 328.3. Artificially irrigated areas, which would revert to upland if the irrigation ceased. Artificial lakes and ponds created by excavating and/or diking dry land to collect and retain water and which are used exclusively for such purposes as stock watering, irrigation, settling basins, or rice growing. Artificial reflecting or swimming pools or other small ornamental bodies of water created by excavating and/or diking dry land to retain water for primarily aesthetic reasons. Water-filled depressions created in dry land incidental to construction activity and pits excavated in dry land for the purpose of obtaining fill, sand, or gravel unless and until the construction or excavation operation is abandoned and the resulting body of water meets the definition of waters of the United States found at 33 CFR 328.3(a). Isolated, intrastate wetland with no nexus to interstate commerce. Prior converted cropland, as determined by the Natural Resources Conservation Service. Explain rationale: Non-tidal drainage or irrigation ditches excavated on dry land. Explain rationale: Other (explain):

Other information (please specify):

¹Wetlands are identified and delineated using the methods and criteria established in the Corps Wetland Delineation Manual (87 Manual) (i.e., occurrence of hydrophytic vegetation, hydric soils and wetland hydrology).

 $^{^2}$ The term "adjacent" means bordering, contiguous, or neighboring. Wetlands separated from other waters of the U.S. by man-made dikes or barriers, natural river berms, beach dunes, and the like are also adjacent.
